More About Tapestry Wall Hangings

The most expressive and effective art form that the world has ever known is the tapestry art form. The stories of the Greeks, Romans, Medieval, and the Renaissance period as well as the Old and New Testament are told vividly in woven tapestry art. Stories related to Homer's Iliad and Odyssey is expressed in these tapestry wall hangings. Even the stories of Virgil's Aeneida and Ovid's Metamorphoses are intensely portrayed through these wall hangings.

Innumerable heroes and nobility have owned hand-woven wall hangings tapestries in France, England, Germany, and Italy from ancient times to the more recent times through the thirteenth to the eighteenth centuries. There was a period of darkness and interruption of artistic expression between the hand-woven tapestry art of classical antiquity and that of the thirteenth century and wall hanging tapestries. For over a thousand years, the weavers were content to leave the making of large tapestry wall hangings to artists and embroiderer. Today they are made on Jacquard looms.

Are you bored of your room's décor? If yes, then wear interior decorator's cap and give your space a makeover by oriental tapestries. Oriental tapestries are one of the most popular and oldest wall hangings. It has been seen that whenever people think to refurnish their rooms the first thing strikes their mind is using **oriental tapestries** as wall hangings.

Talking on a broader sense, **oriental tapestries** use myriad plants in diverse scales. These diverse scales are generally arranged in a boisterous composition not commonly found as a mere background pattern. Also flowers and plant life constitute a basic motif of majority of the oriental tapestries, that too beginning in the eleventh century and continuing until at least the fourteenth. In short, oriental tapestries are the product of the brilliant use of color for providing a realistic and attractive effect.

Talking about oriental tapestry's distinct artwork, it is the La Recotte des Ananas from a series called "The Story of the Emperor of China". This art of form of oriental tapestry usually depicts a daily routine in China. That is peasants picking fruit, and is lavish in its attention to detail. Apart from that it also showcases the Chinese Empress gesturing towards the plentiful fruit being harvested, with a pagoda and other buildings in the background. In short having oriental tapestries is a visual treat.

Moreover, the scene also depicts various other tropical fruits and plants that too, setting the context as Eastern and noticeably non-European. But according to the experts, the typical Oriental style is believed to have been woven between 1697 and 1705 which was commissioned by Louis Alexandre de Bourbon (1678 - 1737), son of Louis XIV.

In short oriental tapestries are the perfect way to depict the exotic and unusual cultures of the East that continues to this day. Delving into the history of oriental tapestries we come to know that they were originally known as **Oriental tapestries** and they first came to prominence in the 17th century.

Oriental tapestries generally represent exotic for off lands like China and often concentrating on various bizarre items such as fruits and animals not found in Europe. Also few historians believe that initially oriental tapestries were designed to provoke audiences in order to challenge polite Europeans ideas about the world they lived in. Thus, this is the time to change the décor of your room and for more information on oriental tapestries, **tapestries wall hangings**; **Chenille tapestries**, **European tapestries**, **Belgian tapestries**, and **medieval tapestry** please visit www.tapestries-tapestry.com.
